

Exhibition in "De Egelantier Verzorgingshuis"

Adres: Egelantierstraat 194

1214 EH Hilversum

From 3 April till 28 June 2024

Maryna Lidahovska - gouache, watercolors, flowers and landscapes

Oleksii Lidahovskyi - digital art made by a self designed robot

Hennie van Schaik - acrylic paint and other various, kind of "dreamlandscapes" abstract concepts. Also sculptures

Personal story

Maryna and Oleksii have been living in Hilversum since 2022 and are originally from Ukraine.

Maryna graduated from the Kharkiv State Academy of Design and Fine Arts. She had 22 exhibitions in Ukraine, and 2 in the Netherlands: exhibitions in the Hilversum library and in the Art Hilversum gallery. Nature and people are the main motives of my works. The energy of nature fills me with joy and encourages me to share it with people.

Oleksii is experimenting with his robot and has also exhibited in the Art Hilversum gallery. He created and programmed this robot to invent and draw abstractions on its own. I ask the robot to draw entropy with acrylic on paper. So that people can see the image of entropy, better understand it. To see how objects, emotions, memories, patterns, orders, arise from chaos.

Hennie has given exhibitions at home, for almost every year in the last 30 years. Besides that he exhibited during the Iktoonfestival in 2022 and 2023 in the courtyard of the beautiful "Raadhuis of Hilversum". My motto is: "Just do it" I am self-taught and like to experiment and permit what comes. I am mainly inspired by nature and everything that cannot be explained or understood.
